

# PUBLIC LEDGER

FOURTH YEAR.

MARYSVILLE, KY., SATURDAY, JANUARY 26, 1895.

ONE CENT.

## LARGEST IN THE CITY.

### purely Business!

The columns of a newspaper represent no publican can afford to give advertising "notices" - it costs him more to print them than to cover his counter free gifts of dry goods or shoes. A newspaper is a living document, its news and its columns are its stock in trade, and advertising must be paid for, no matter in what part of the paper they appear.

### The Continued Call

The Ledger is here to give free notices because so burdensome that we are forced to publish the following items:

### For Notices of Sales,

excessions, fairs, or other public entertainments where a fee is charged, and for all other notices of a like nature, &c., THE LEDGER will charge FIVE CENTS A LINE, and herewith this note to the incredulous reader. This, however,

### Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

### Avoidance of Disputes.

Misunderstandings are unpleasant. The price of the *Public Ledger* in THE LEDGER is 10 cents a line for the first insertion and 5 cents for each subsequent insertion. A customer orders a *Livingstone local inserted in the paper*. "What does it cost?" says the boy. "Well, it costs 10 cents," says to the bookkeeper. But he forgets to add that it is to be paid for two months - 30 times; - the bill is \$3.00. When it comes in there is a "kick" and a contretemps follows, probably by an icy feeling. Now, to obviate such trouble, and to make no notice will be accepted hereafter. Let's have a definite agreement at the outset, and termination will be present all around.

"All matter for publication must be handed in before 9 o'clock in the morning of each day."

If you have friends visiting you, or are going away on a visit, please drop us a note to that effect.

R. D. H. Hughes of Wallingford was in the city yesterday.

We respectfully invite comparison of our *Ledger* with any other daily newspaper in North-eastern Kentucky.

If any one can find a daily paper published in the Ninth Congressional District that has

Larger Circulation, or More Original Reading Matter, we will take pleasure in presenting him with a year's subscription to THE LEDGER.

Hon. Frank Power is now Town Judge of Grayson.

The assessment of property at Carlisle this year is a little over \$800,000.

The Central Hotel at Winchester has been sold to St. Louis parties for \$40,000.

Colonel H. Matt Stitt of Carlisle is being nominated for the Legislature. It beats hell.

Mr. Joseph Cheeseman of Aberdeen has charge of the books at the Maysville Shoe Factory.

Dr. W. D. Howe of Carlisle sold his packing mare Whirligig at the Chicago horse sales for \$1,110.

It has been decided to use the proceeds of the Lexington Exposition toward erecting a much hall.

For failure to produce vaccination certificates, 3,917 children have been dismissed from the public schools of Philadelphia.

Mr. Hugh P. Nesbit, son of Mr. and Mrs. T. V. Nesbit of this city, is now the Washington correspondent of the Pittsburgh Press.

The K. of P.'s at Elwood, Ind., have expelled all saloon-keepers from membership, in accordance with the decree of the Supreme Lodge.

Captain J. H. Lawwill, a former resident of Maysville, it is said, was fatally injured in a runaway accident Wednesday at Washington C. H. O.

At Portsmouth Frank Polley was convicted of burglary. He is the sixth brother who has been sent to the penitentiary for a like offense in the last year. His father is serving a similar sentence. There will be a family reunion when Frank is landed.

Representative Beckner will introduce in the House a bill to increase the grants of public funds for school purposes. The bill proposes to distribute among the older states about 27,000,000 acres for the public schools. Kentucky's share would be 1,800,785 acres.

### STARTING SCIENTIFIC FACTS.

There's a curious young bacillus and a natty little germ.  
Or some frisky diatom or a microscopic worm.  
Or some scientific wonder dragging 'round a round hole in the ground.

And the sun will be much colder in about a million years.

And a portion of earth's moisture slowly disappears.

And comes in a steady cooling and excites our human fear.

So, by jings! you needn't wonder if it fills my eyes with tears.

In a hundred generations man will have no more to do.

And this sun will be as naked as a shiny hillside ball.

His superfluous vital vanity, he will be but four feet tall.

So, by jings! you cannot wonder if my flesh begins to crawl.

He will travel with electricities, bicycles and cable cars;

With his head he will wander like a meteor and the stars;

He will open navigation on the waterways of And, by jings! where will you stop him when he once lets down the bars?

And now Edison's inventing patent food, and I'll be blessed.

But I won't knock out the farmers and the rest of the baby incubator-and perhaps that is best.

But I'll go to Philadelphia, where my brain is at rest.

-Judge.

**MARYSVILLE WEATHER.**

**What We May Expect For The Next Twenty-four Hours.**

**THE LEDGER'S WEATHER SIGNALS.**

White streamers - FAIR;  
Blue - RAIN OR SNOW;  
With Black ABOVE - TWILLI WARMER  
Below - COLDER.

If Black's BEHINER - COLDEN'T WILL  
be;

Unless Black's shown - no change  
in weather.

The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock on Saturday evening.

Mrs. C. W. Blyer, who has been seriously ill, is improving.

James Galbraith of Germantown and Miss Rose Linn of Bridgeville married at Cincinnati.

Miss Mattie Sapp of this city was one of the attendants at the Crabb-Purdon baptism at Eagle Creek Church a few months ago.

For next season a large hotel will probably be built at Carter Caves, to be reached by electric cars from the present line of the C. and O.

The merchants of some Ohio towns have been "scoped" by a lot of frauds who pretend to have an agency for the collection of bad debts.

Rev. R. H. Dodson, formerly of Dover, and brother-in-law of Mr. John W. Clinger of this city, is now Pastor of the Johnsonville Christian Church.

Russell is to have the C. and O. and Covington shops. The C. and O. already has several miles of siding at that place, and large extensions are being made.

Elbridge W. Sutton of Brown county, and Mrs. Julia M. Ryan of this country were married Thursday by the Rev. Father A. T. Ennis of this city.

Dave Cooley a brakeman on the L. and N. was knocked off a bridge and killed near Paris some time ago, and now his father uses the company for \$6,000 damages.

The weather yesterday afternoon was much finer for ducks than it was for the successful operation of trolley cars. Between the sleet on the rails and the sleet on the wires the majority of passengers had to walk.

The tonnage men of the Norton Iron Works, Ashland, including heaters, nailers, rollers, and platters, to the number of 100, have agreed to accept a reduction of 20 per cent. and the plant is expected to resume at that rate.

Uncle A. Bud Toole will observe his 55th birthday tomorrow by having a number of devoted friends dine with him off a 25-pound turkey. Mr. and Mrs. Toole are among the oldest citizens in their locality, and it has long been their custom to collect their friends on these anniversaries.

If something is not done to suppress the Vandenberg correspondents of the city dailies, it will soon necessary to discredit everything one reads from that source. Newspaper reporters and correspondents, however they may try to get real facts, are frequently imposed upon, and often commit errors: it is unfortunate for any one to manufacture sensations out of whole cloth. And the newspaper that encourages that is as much to blame as the person who furnishes the fiction.

John Woods, the first discharged, was reinstated by the Department, and remained on duty until he embarked in the manufacture of candles.

Fred Winter was the next to feel Jones's axe. In one week he was reinstated, but he promptly resigned to accept a position as commercial traveler for the Cedar Shoe Factory.

Jones's closest friends, it is rumored, are asking him to resign, as he blunders

they allege, are putting his party and personal friends in very bad odor with the public.

Mr. John C. Smith is somewhat improved this morning.

Bedford King stole some fancy chickens at Middlesborough and got two years in the pen.

Mr. Fred Arn, Superintendent of the Mason County Cemetery, is suffering intensely with his hands, which were badly frozen while digging the grave of late Colonel Frank S. Owens.

Samuel Hooper, a Barren county merchant, has been held in \$400 to answer for stealing kisses from his wife's pretty cousin. Served him right for "stealing" them. Why didn't he walk up to the trough like a man and -take 'em?

Walter Skinner and Howard Blythe, the youths who were arrested by Chief of Police Orri charged with sealing pipe from the H. E. Pogue Distilling Co., were taken before "Squire Miller" yesterday, when they pled guilty. They were held in the sum of \$30. The boys were taken before Judge Hutchins later in the day and each was given a sentence of six months in jail.

Mrs. Warner of the Cincinnati School of Expression, who is to deliver a lecture under the auspices of the Haywood Physical Culture Club on the subject of "Physical Culture and Artistic Dress," recently gave one of her charming parlors at the palatial residence of Mrs. Alex McDonald of Clifton. Her lecture in Maysville will be given at the Y. M. C. A. Hall at 8 p. m. January 31st.

Dr. J. W. Gaines of Orangeburg was in "Squire Brand's" Court yesterday charged with failing to register births and deaths and accused of being drunk and was fined \$25. Dr. G. D. Gandy also called upon to answer to the charge of failing to register in the County Clerk's office before practicing medicine. On motion of the Prosecuting Attorney this case was dismissed, the accused paying the costs of the Court.

**PAYS NO TAXES.**

**Some of the "Church Property" Enclosed in Louisville.**

The Assessor of Louisville has made return of the property exempted from taxation in the total amount of \$2,000,000, in round numbers.

In the list of churches the Roman Catholic, like Rev. Albin's name, "leads all the rest," and the property exempt covers a number of institutions connected with various churches that ought to be taxed the same as other establishments carried on for the purpose of making money.

Below is the aggregate of church exemptions, by denominations.

Roman Catholic ..... \$1,049,291  
Methodist ..... 225,335  
Baptist ..... 866,629  
Presbyterian ..... 645,074  
Episcopal ..... 455,410  
Cath. ..... 66,300  
Hebre Churches ..... 108,383

United Brethren in Christ ..... 1,073  
Gospel Evangelical Church ..... 415,087  
Evangelical Reformed Church ..... 415,087  
Lutheran ..... 477,738

Total ..... \$4,311,988

The LEDGER wants every neighborhood to have good roads, and it wants to make the burden equal on all the people.

One way to accomplish this is to acquire the roads by purchase, place them in charge of a non-partisan Commission, and levy a small per cent. on county assessment to maintain them.

But the most logical and the most equitable and as we believe the most economical way to accomplish the purpose is to ascertain from the owners the average yearly receipts of the gates within this county on all road and to pay an equivalent to the tolls now received from a fund to be provided by equal taxation for that purpose.

This would leave the roads in the hands of present owners.

They would be required to maintain them as now.

They would be rid of the expense of the gatekeepers and tollhouses.

And their income from tolls would be just what it now is.

In case of the dividend-paying roads, the dividend paid on the county's stock would lessen the public burden by that much.

But THE LEDGER is not so wedded even to the latter plan that it will not accept any other. If a better one can be devised.

For nearly fifty years all the people have been taxed for the benefit of only a part of the people.

The LEDGER now wants all the people taxed for the benefit of all the people.

Let "Free Travel" be the watchword in the next campaign in Mason county.

In the midst of life we are in debt. If you owe THE LEDGER anything we'll be pleased to trade our best autograph for cash.

The attachment suit brought against Colonel W. S. Barnes, the well known Lexingtonian, has been dropped, and his property released of the garnishes. Colonel Barnes proved that the claims had been settled years ago, and that Captain M. M. Clay, for whose heirs the suit was brought, had acknowledged receipt in full for the alleged indebtedness.

At Portsmith two weeks ago Postmaster John Jones discharged Thomas Adams, a letter carrier, and as he afterwards confessed, without cause.

Adams was a bright young newspaper man, and was prominent in local organized labor circles.

The only cause for his removal was that he was an unflinching Republican.

This was not according to the ethics of Civil Service reform, and an Inspector arrived in the city to investigate the case.

The result was that Postmaster Jones was ordered to put Mr. Adams on duty again.

This is the third case of the same kind that has occurred during Jones's one year service.

John Woods, the first discharged, was reinstated by the Department, and remained on duty until he embarked in the manufacture of candles.

Fred Winter was the next to feel Jones's axe. In one week he was reinstated, but he promptly resigned to accept a position as commercial traveler for the Cedar Shoe Factory.

Jones's closest friends, it is rumored, are asking him to resign, as he blunders

they allege, are putting his party and personal friends in very bad odor with the public.

AMERICA FOR AMERICANS AMERICANS

HOKINLEY AND WILSON ABOARD.

In 1890 William McKinley was burned  
in agony in the English manufacturing  
city of Sheffield, but in 1894 William  
H. Wilson was dined and seated in London  
because he is the author of a Free-trade  
Turf Bill. These are significant facts.

It is rumored at Washington that the  
President is preparing another special  
message on the financial situation and  
the necessity of releasing the Treasury.

If messages could avert public evils  
and save the country from embarrass-  
ment, Mr. CLEVELAND's Administrations  
would stand out in history as brilliant  
successes. But talk is cheap. Democrats  
are refractory and the United States  
Senate is something of a bear garden.

If this new special message should ad-  
vise the Democratic Senators and Rep-  
resentatives to give up trying to concoct  
any financial policy for themselves, and  
to place the business in the hands of  
intelligent and capable Republicans like  
Senator SHUMAN, the Government might  
be relieved and the country benefited  
without the necessity of calling an extra  
session.

It is quite evident that the present  
Congress is incapable of framing a sensi-  
ble and practical financial policy, and  
the best thing Mr. CLEVELAND can do if  
he does send another message is to re-  
mind it of that fact.

The foregoing sounds very  
much as though a Republican wrote it;  
but may—it is from an editorial in the  
rock-ribbed Democratic New York World,  
which Br'er Manus so often quotes as  
the Democrats' Bible.

### BUSINESS BOOMING!

### SOME SEQUELS TO THE LATE POLITICAL REACTION.

Before the election Mr. Lauson argued  
that another success meant a restoration  
of confidence, the opening of American fac-  
tories, the resumption of business, and  
the creation of employment for American workmen, and  
that success was the only employment  
for American workmen, and  
of renewed prosperity all along the line. That  
the houses held out by THE LEADERS  
were not held out by THE LEADERS  
but by the people. Below are a few evidences of the business  
revival that tends to the heel of the great Re-  
publican victory.—Editorial.

## LIVELY TIMES.

Return of Detective Drake and Friends to Mt. Sterling.

The Town Excited as Never Before by the Lynchers and the Antis.

Trouble Was Hourly Expected But a Temporary Truce Was Picked Up—Indictments Against Several Lynchers Armed Guards on Duty.

Mr. STERLING, Ky., Jan. 26.—Detective Drake arrived here Friday morning from Beattyville, where he had been taken, charged with murder. He was accompanied by his attorney United States Marshal Blair, of Louisville, and other officers. When the crowd got off the train there was considerable excitement, and for a while it looked as if there would be war between Drake and his friends on one side and the city police on the other.

A committee of citizens, after hearing a report that Drake and his friends had come to arrest every man implicated in the lynching of Wm. Wilson and his lieutenant, Samuel Tunney, waited on Judge Cooper and County Judge O'Rear. They pleaded that the imported officers and detectives were not allowed to arrest citizens of Montgomery county, and that they were only willing to let them go if they could be assured that if such a thing was attempted many valuable lives would likely be sacrificed.

Judge O'Rear was soon convinced that the men better remain here, and the officers of Montgomery county to the arrests, but Judge Cooper dismissed the committee, only his reply being that he would see about it. Detective Drake stated Friday that neither he nor his deputies would attempt to make any more arrests; that Jailer Chenuant would serve the warrants.

Upon arriving at Beattyville Thursday night Drake was taken before the court and held on \$1,000 bail, and was held in \$1,000 bond to appear next Tuesday. As soon as the people of Lee county heard of Drake's arrest they gathered in such numbers that the courtroom was not able to hold them, and were made to stand outside. The proper way to sign his bond, Every lawyer at the Beattyville bar volunteered his services to defend Drake.

An effort was made to serve a subpoena duces tecum to the sheriff, the man of this city who swore out the warrant against Drake, but he could not be found. His brothers, who feared he would get into serious trouble, did not come forward.

Drake's friends did not come armed to help him fight, but simply as a committee to testify to the Montgomery authorities that he was a man of high character. These gentlemen left on the 6 o'clock train for their homes, Marshal Bird alone remaining to assist Drake.

No arrests were made Friday, but the grand jury is still investigating the matter, and has examined a great many persons. A indictment will probably be issued Saturday for five or six persons charged with lynching Blair.

The lynchers of Blair are known. Clegg, Campbell, and Johnson, the salaried hotel office openly discuss the facts and one or two have admitted that they participated. The contest now is simply between the law-abiding people of Montgomery county and Taylor Young's influential faction.

Chief Wilson, who is friendly to Young's sympathizers, and has the warrants, instead of Jailer Chenuant, as is claimed Friday night, this fact is significant. Armed guards still stand outside Cooper's court. Threats against Marshal Drake are heard on every hand.

On Friday night Marshal Drake held another conference with Chief of Police Wilson, and refused that a number of warrants should be issued until morning. Chief Wilson refused and Drake reiterated his threat that he would arrest Chief Wilson and Pollowman Sam G. Turley. Drake was told he could not arrest the officers, and Wilson said he would die first. Turley said to a reporter:

"We will die in our tracks before we submit to Drake. He does not dare to try to arrest us. One hundred of the best officers in Montgomery county have told me that he would stand by me and that is all I want."

"Judge Cooper, who is causing all this trouble, killed a man a few years ago while two other men held him. We are getting evidence in all these cases to prove to have the court itself make a few explanations about that killing."

A Jury for the Deba Case.

CHICAGO, Jan. 26.—It was 5 o'clock Friday afternoon before a jury was selected for the trial of Deba. Before adjourning court Judge Grosscup announced that he would have only one attorney on each side in the opening of the case. Gen. Black, district attorney, who was present, and Mr. Sabin, morning, and either Judge Sharon, of Terre Haute, or Mr. Gray, of this city, will speak for the defense.

A Printer's Terrible Death.

PITTSBURGH, Jan. 26.—William H. McGrath, 31 years old, a printer, was shot at his six-year-old daughter Lillian, killing her instantly, and then put a bullet through his own head. He died an hour later in the Polyclinic hospital. Mr. McGrath, known as Mr. McGrath was a compositor on the Philadelphia Times, where his father and brother are also employed. It is supposed that the man's mind had become affected through illness.

CINCINNATI, Jan. 26.—A board of trade firm of Wm. Young & Co., 237 Fifth avenue, died Friday. The firm was one of the oldest on the board, and the result to cause considerable excitement in the pits.

## DUN'S TRADE REVIEW.

The Constituting Demand Has Not Increased This Month, as Was Expected.

New York, Jan. 26.—R. O. Dun & Co.'s Weekly Review of Trade, issued Saturday, says:

"Frents have not helped business this week. About \$10,800,000 gold has been withdrawn from the treasury, mainly for export, and the gold reserve has been reduced to about \$100,000,000. Since December 31 the treasury has lost, in thirty-nine working days, about \$33,000,000 gold, and daily market quotations are liable to effect markets unfavorably."

"Industries have not as yet found sufficient demand for their products to prevent a further decline in prices, and this week the average for all commodities has again gone down, and is below even known. The number of points adopted does not increase, and a strike has cut off for more than a week about half the business of Brooklyn, to some extent affecting trade."

"Commodities are failing to replenish the treasury, and a greater variety of financial doctors, each offering his remedy, does not promise health for the patient. Another issue of bonds under consideration, and the chronic stamp may result in another chronic stamp.

"At bottom, business hesitates because the future is clouded and the consuming demand has not increased in January, as was expected."

In the belief of some, production is to

cease production, and until it does

the excess of producing capacity con-

stantly tends to depress prices."

"Payments through all clearing houses appear a shade below those reported last year, gaining 14 per cent, but worse compared with 1893, losing 33.6 per cent."

Only about 10 per cent of the loss is due to gain in prices since January, 1893. Liabilities in failures for seven months have increased 10 per cent again to \$16,664,900 in ninety days last year, the loss in trading concerns failed being \$5,894,160, against \$5,000,

"Failures this week have been 300 in the United States, against 439 last year, and 59 in Canada, against 25 last year."

**THE BROOKLYN STRIKE.**

Twenty-Five Men Killed by a Strikers' Committee—An Explosion.

BROOKLYN, N. Y., Jan. 26.—Friday afternoon there was a howling mob in front of the police station.

Opposition surrounding a police car, which had been destroyed by the mobmen. The police are absolutely powerless. Most of the patrolmen are on duty at the stations, some distance away. The crowd is amassing itself, threatening the windows of the stalled cars.

The strikers, under Walking Delegate Hill, have induced the crews of the men of the cross-tow and Graham avenue to desert. The strikers in some instances returned the cars to the stables.

A dynamite cartridge exploded in front of 176 Myrtle avenue Friday. Window panes were broken, but nobody was injured.

What is supposed to be a dynamite cartridge was picked up Friday evening by a man who brought it to the First precinct station house. The man said he found it at the corner of First and Myrtle avenues, in one of the busiest stations of the city, and where several car lines pass. The object was found on the car track. It is covered with a thin skin of wax, and the fuse was about a foot long. The bomb immediately brought it to Police Superintendent Campbell, who decided to send it to the navy yard, where an examination will be made.

## SUNDAY IN ENGLAND.

HOW ITS USES ARE COMING TO BE REWARDED  
BY MEN WHO LIVE TODAY.

The London Humanitarian.

During the last year the rational Sunday has made vast strides. Happily, the bath has been a bloodless one. The hard words which have been dung have broken no bone. We may take courage from the reflection that the manly enjoyment is paved with hard words. But who, after rational Sunday recreation such as that involved in the opening of museums and picture galleries, have still time to reckon with forces of cant and courage. Happily, the social fog which so long enveloped the English Sunday is fast being dispelled by the light of the sun, and today there is not a single public man of eminence who does not, on broad lines, sympathize with the cause we have at heart: in spite of the fact that there still exists the obscure Act of Parliament which provides that "things done during a session of parliament or adjournment" on Sunday is technically illegal. It is sixteen years ago since Lord Rosebery, in his address as President of the Sunday Society, in the course of a luminous exposition of this question, said:

"In this society are, in our humble way, only fighting one great skirmish of the outposts in the war against cant, and on our banner in that engagement we might engrave this manifesto: 'We regard the vacant hours of Sunday as a great waste of opportunity and a greater danger. And we further think that the great mass of the people, to whom the public schools and picture galleries belong, should not be, as they now practically are, debarked from enjoying

the services of their subscriptions to the Agent."
